STORE ROOMS OF SANITARY
BAKERY ENTERED AND CASH
TAKEN FROM TILL.

HOME GUARDS, SAY POLICE

Cut Pane of Glass from Rear of the
Building and Risk Jail for \$2
and Some Candy.

The store room of the Dixon Sanitary Bakery Company was broken into and robbed last night. Only a small amount of change had been left in the cash register and this with some old coins, a gentleman's silver watch, some box candy and gum, were the only articles found missing when the robbery was discovered this morning.

Entrance was effected into the store room by cutting a pane of glass from a rear door of the building and the bolt released. The cash register contained about \$2, in small change and old coins. The watch was of little value and the number of boxes of candy could not be determined.

The robbery was immediately reported to the police, who are of the belief that the work was done by local talent.

Churches of Dixon United In Thanksgiving Service

The union Thanksgiving services, in which the congregations of all of the churches of the city participated, were held at the Methodist church Wednesday evening and the big auditorium of the church was crowded with worshipers. An excellent musical program was rendered, as published in Wednesday evening's Telegraph and a fine Thanksgiving sermon was delivered by Rev. C. E. Stebbins, pastor of the Congregational church.

The Sermon.
Rev. Stebbins preached from the text: "He loveth our nation and hath built us a synagogue." He said in part:
"On the western shore of that gem of marvelous beauty and scene of sacred history, the Sea of Galilee, at a point of land extending out into the lake, and on the gentle slope of rising ground may be seen a ruin composed of a few stones heaped together as though tossed there by some convulsion of nature. These stones are the only monuments that mark the site of what was once a prosperous city, with its markets, custom houses, synagogues and private residences. And this is typical of the decay of that splendid nation that marked the high tide of the old world's intellectual and moral life.
"At the time of the incident recorded in the context it was the home of Simon Peter, and also the center of our Lord's ministry.
"Nations like individuals have instinctive traits, and frequently these traits bear the stamp of some man who has a genius for peace or war. If a Caesar could give to Rome her ideals of strong government, if France could be influenced for a century by Napoleon, and if the United States be moulded by the spirit of a Washington or a Lincoln, can not the Almighty place his stamp of approval on this last and we believe best effort of men to express their highest ideals of social relations."

Maytown Youths Held to Next Grand Jury For Larceny

Charles McBride and Cal Groth
Are Charged With The
Theft of Turkey

Charles McBride and Cal Groth were bound over to the grand jury by Police Magistrate George E. Hines of Amboy Wednesday following a charge of larceny preferred by William Reinhold. They were placed under bonds for \$50, which they furnished and were released from custody.

The young men, who are residents of May township, drove to Amboy last week and while there are alleged to have imbibed too freely in malt and spirituous liquors and to have become quite obstreperous on their return home. It is said they stopped at the Hall school, taught by Mrs. William Langley, while school was in session and created a disturbance by driving around the building and shouting. Mrs. Langley sent one of the pupils out to inquire what they wanted and they immediately challenging him to a fight.

Tiring of this they continued toward their home a short ways when they spied a flock of turkeys. The state charges that both men got out of the buggy and together they caught one of the choicest birds in the flock and took it home with them.

Their arrest and being bound over to the grand jury followed. State's Attorney Harry Edwards had charge of the prosecution and Attorney John E. Erwin looked after the interests of McBride and Groth.

BRITISH SHIP IS SUNK IN THAMES EXPLOSION INSIDE

BATTLESHIP BULWARK, PRE-
DREADNAUGHT, WENT TO
BOTTOM.

ONLY 14 OF 800 MEN SAVED

Admiralty Has Started Inquiry to
Determine Exact Cause of the
Disaster.

(Associated Press.)

London, Nov. 27.—That the British battleship Bulwark, which was blown up off Sheerness, was the victim of an internal explosion seems more plausible as additional details are gathered. Inquiry into the disaster, which cost the lives of all but fourteen of the crew of 800 has begun at Sheerness.

THIRTY BODIES RECOVERED

Sheerness, Nov. 27.—Thirty bodies from the battleship Bulwark have been recovered.

London, Nov. 27.—The admiralty announces that the British dreadnaught Bulwark has been destroyed by an explosion in the Thames off Sheerness at the mouth of the estuary of the Medway. Only twelve men out of 750 aboard the battle ship were saved.

Built Fifteen Years Ago.

The Bulwark was laid down at Devonport in 1899 and was launched the same year. She was 430 feet long over all and had a displacement of 15,000 tons. Her two sets of triple expansion engines developed an indicated horse power of 15,000 and drove her on her official trials at a speed of 18.1 knots. She carried four twelve inch guns in pairs in turrets fore and aft, twelve six inch guns in casemates, sixteen three inch guns, six three pounders, two machine guns and four submerged eighteen inch torpedo tubes on the broadside.

Her armor consisted of a belt of Krupp armor, fifteen feet wide, running from the bow to the after turret, nine inches thick amidships and tapering to two inches at the bow, with twelve inch armor protecting the bulkheads, eight to ten inch on the turrets and an armored deck.

Believe Explosion From Within.

The known facts are that a tremendous explosion occurred while officers and crew were about their ordinary duties. It is reported that the band was playing—and in three minutes the shattered hull of the great ship has disappeared beneath the surface.

The admiralty is holding inquiry for the purpose of fixing the cause for the annihilation of a warship which lay within a few miles of London and was safe, presumably, as any ship could be from even the extraordinary hazards of war. The only opinion put forward by naval officers who made a preliminary investigation is that there was an accidental explosion of ammunition which was being loaded into the magazine of the bulwark, and that the magazine blew up.

This is the conjecture of a vice admiral and a rear admiral who were at Sheerness when the detonation rocked buildings for seven miles around. They declare that there was no upheaval of water such as invariably follows the explosion of a mine or a torpedo launched from a submarine. They find from what evidence there is that the explosion was primarily internal.

Pending an investigation and detailed report by the admiralty there is, unquestionably, a fear in the minds of many that the Bulwark was a further victim of the stealthy undersea strategy of the Germans. The conjecture may be utterly unwarranted possibly, since the Thames is so completely mined at the mouth that it would be difficult for a mackerel to slip through without knowledge of the safe passages. But the notion persists and will be held until the government is able to remove it by an acceptable report.

Dixon Young Men And Woman Hurt In Auto Accident

Car In Which They Were Rid-
ing Turned Turtle
Thursday Eve

Fred Kimberel, Ned Tippit and a Dixon young lady had a narrow escape from death early last evening when the automobile in which they were riding turned turtle just a short distance east of the cement plant on the Grand Detour road. Kimberel and the young lady were pinned under the machine but Tippit was thrown clear and dragged the machine off his less fortunate companions. None of them were injured beyond a few bruises but the machine was almost completely demolished.

The young people had just gone for a short ride and were traveling at a moderate rate of speed, when Kimberel, who was driving, lost control of the machine and it swerved and turned over pinning two of its occupants under it. They telephoned a local garage and the party and the wrecked car was brought to this city.

Special Services at Brethern Church Thanksgiving Morn

Thanksgiving services at the Brethern church were very enjoyable. Evangelist Barnhart delivered a masterly address at 11 o'clock suitable to the occasion, after which the congregation repaired to the basement and partook of a bounteous Thanksgiving dinner, which was free to all.
A splendid audience was out at the evening services which listened to the evangelist with profound interest. The speaker in the evening also was at his best.
The address was not sensational, but the kind to provoke intense spiritual consideration, being built upon the great truth of Jesus Christ and Him crucified as the foundation of God's redemption of man.
Why a Christ?
The speaker raised the interesting question, "Why a Christ?" He showed that a Christ was necessary to the world that in Him, the world might see and know God the Father and thereby that the race of men had lost His image. And know what we must be to be restored to that likeness.
His address was very interesting throughout.

HAIR THICK, GLOSSY, FLUFFY

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle, and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.

How To Make the Quickest, Simplest Cough Remedy

Much Better than the Ready-Made Kind and You Save \$2.
Fully Guaranteed

This home-made cough syrup is now used in more homes than any other cough remedy. Its promptness, ease and certainty in conquering distressing coughs, chest and throat colds, is really remarkable. You can actually feel it take hold. A day's use will usually overcome the ordinary cough—relieves even whooping cough quickly. Splendid, too, for bronchitis, spasmodic croup, bronchial asthma and winter coughs.

Get from any druggist 2½ ounces of Pinex (50 cents worth), pour it in a pint bottle and fill the bottle with plain granulated sugar syrup. This gives you—at a cost of only 24 cents—a full pint of better cough syrup than you could buy for \$2.50. Takes but a few minutes to prepare. Full directions with Pinex. Tastes good and never spoils.

You will be pleasantly surprised how quickly it loosens dry, hoarse or tight coughs, and heals the inflamed membranes in a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, rich in quinine, which is so healing to the membranes.

To avoid disappointment, be sure and ask your druggist for "2½ ounces Pinex," and don't accept anything else.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

DANDRUFF SURELY DESTROYS THE HAIR

Makes it Dull, Brittle, Lifeless,
and Causes It To Fall Out.

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy, every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will be silky, fluffy, lustrous, soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

NOVEMBER 27 1914

COL. LOWDEN IS RECEPTIVE.

The editor of the Rockford Register Gazette in a recent article had the following to say concerning the proposed candidacy of Col. Frank O. Lowden for governor of Illinois:

Col. Frank O. Lowden of Sinissippi farm, Ogle county, is besieged with letters these days from friends all over the state urging him to become a candidate for the republican nomination for governor at the primaries in the spring of 1916. These friends are pointing out to him that he can come nearer uniting all former factions than any other man in the state and lead the party to a great victory in the next campaign.

Col. Lowden is unquestionably in a receptive mood, but he very sensibly regards it as too early to give a definite announcement as to how he feels about the matter, for the primaries are still eighteen months away. Moreover Col. Lowden is mighty busy these days developing one of the greatest stock farms in the county and completing a near a model barn for cattle as it is possible to build. His whole heart is wrapped up in his Sinissippi farm and not in politics, yet he is ever an intense republican and anxious at all times to aid the political party in whose principles he so firmly believes.

Col. Lowden was never in better health than at the present time. He is not unmindful of the desires of his legion of friends all over the state and in due course of time will clearly make known his position in the next campaign. To no one is he saying that he will not be a candidate for the gubernatorial nomination in 1916. In fact, if he continues to enjoy the splendid health he has now and becomes convinced that the people want him to make the race and that by so doing he can bring about harmony in the republican party in Illinois, the chances are that he will shy his hat into the ring.

There is no question about Col. Lowden's popularity or ability. He is in every way fitted to make one of the best governors Illinois has ever had and should he become a candidate it is most logical that Northern Illinois, where the great republican majorities have always been rolled up, would be back of him at the primary with a tremendous vote.

EXPRESS AND PARCEL POST.

Competition by parcel post was expected to diminish the returns of the express companies, but a loss of operating income of \$4,000,000 in a single year reveals a situation which, if continued, might result in putting them out of business. No one would deny that the parcel post has been a great benefit to the country generally, yet there remains a class of business that the express companies can do more effectively. They are meeting now with unfair competition, and the fact that the government is the competitor cannot make it fair. The profits of the parcel post, in fact, come out of the pockets of the railways, which are transporting mail matter of this sort at ruinous rates. The temporary advantage to the postoffice department does not outweigh the permanent disadvantage to the commercial interests of the country, which depend in no small measure upon the prosperity of the railways. The government, like the individual, should pay a fair price for what it gets. —Philadelphia Public Ledger.

Abe Martin relates that Tell Brinkley says he allus hates 't see a questionable show come along 'cause it's so hard 't git up 't 'th' box office. He also tells us that nobuddy ever had a bunch o' all star relatives.

What has become of the old-fashioned man who had an aunt in the country who always sent him a Thanksgiving turkey?

There is really no need for feeling badly over parting with your salary. It won't go very far.

WHAT WHEELER THINKS.

Hiram Wheeler, veteran editor of the Democratic Quincy Journal, who remembers well the circumstances attending the nomination and election of Abraham Lincoln to the presidency, makes the following comment on the proposal to nominate Senator Sherman:

"This is a matter that the people in this district, which is the senator's old home, should not neglect, for Senator Sherman is a man of presidential capacity. He is certainly as big a man as Taft or McKinley or Chester A. Arthur, or as Hayes, or as Johnson was, and much bigger than most of these men were. Why shouldn't the republicans of this district and of this state boom Sherman for president?"

"In one important respect Abraham Lincoln and L. V. Sherman are much alike. Neither of them will go down in history as an especially handsome man. But both of them will go down in history as men of sense and substance.

"I remember very well when Abraham was first mentioned for the presidency. I say first mentioned. And then it was to laugh; it was treated as a joke. But time passed with it and Mr. Lincoln was Illinois' candidate for the presidency, with the small delegation of the state behind him."

WAR NEWS BY MAIL.

The Associated Press, besides its cable accounts of the war furnishes much news that comes across the ocean by mail, from England, France, Germany and other countries. The news is marked "Correspondence of the Associated Press." It may appear without a date, or dated a couple of weeks back. It consists mainly of interesting sidelights on the war and on living conditions in the warring countries. But it also contains, occasionally news sent by mail to escape the blue pencil of the official news censors.

These mail advices are often more interesting, and sometimes more important than the regular cable news.

The Associated Press mail correspondence furnished this country with its first knowledge of the loss of the Audacious. It now brings the "inside" story of recruiting conditions in England. No such account of the lack of recruits as that mailed under date of Nov. 13, and just received, could have been sent to the United States by cable. The censor would have killed it.

This mail correspondence may not bear the date of the issue in which it is published, but it is real news, for the censor never had it under his eye. Read it in The Telegraph.

MARCHING ON.

The world is growing better as it jogs along its way, though virtue seems at seasons, to be baling little hay; the wicked one may conquer and be cheery to ra day, but Right is marching on. The people are bunked by the faker's rignaroles, and they hand the Right a package when they gather at the polls, but they can't be fooled forever—they'll awaken, bless their souls! and Right goes marching on. The world is growing better, though the pessimists proclaim every city is a Sodom and the government a shame; we are wise to all the knockers and despise their dreary game, and right is marching on! Oh, the Right will never falter till its journeying is done; every year a little closer to the goal that must be won, every day a little nearer to the palace in the sun, the Right is marching on. It must cross the hills of Hatred, it must breast dark Error's flood, and the wicked will pursue it with a lusting for its blood, but the outcome still is certain, and the wicked's name is mud, and Right goes marching on. It will always come forth smiling from the shadows of despair, it will live through every ambush, it will battle every snare, it is mighty and undiluted all the time and everywhere, and still goes marching on.

Uncle Sam probably had enough left-over turkey on his dinner table

yesterday to have fed all the children of Belgium. And the children of Belgium are just as innocent of wrong and just as deserving of loving care as Uncle Sam's children. It is impossible to understand the inequality and the lack of regard for real deserts in the distribution by dame fortune of her bitter miseries and her delicious luxuries.

ELEPHANT'S THANKSGIVING PRAYER.

BY ALBERT W. BITTERS.

Dear Lord, give me desire and heart to pray
In humbleness to Thee, on this Thanksgiving day,
To mark the blessings Thou hast given men
Who walk in wisdom's way and Thy Love ken.

'Tis meet that I on bended knees implore
Thy high and holy purpose to restore
The weal and wealth along industrial lines
I knew in days of old Protection times.

God grant that this "New Freedom" soon may pass
Into innocuous desuetude, there find its class,
And thus remain until the earth shall be no more
Or my rest is gained upon the other shore.

Pain can be seen the light of Thy selection,
In devious results of the late election,
Hence am I constrained, and do beseech Thee
To lead me by His Will and thus to teach em.

Lord, forgive me for this reign of Free Trade rule,
And balking of the Democratic mule—
This evil must have come upon me by invention
Or His Satanic Majesty's dire and vile invention.

But, give me strength for two more years
To suffer on through the valley of fears—
My word! I'll put Democracy to rout
And then there'll be no "River of Doubt."

Let Thy dear mercy be of world-wide scope,
That the sons of toil may be filled with hope,
Their rainbow of promise, like the pot of gold,
Springs from the votes the ballot-box hold.

Give me but the shield of the dear old Flag,
The warmth of its red, white and blue, I brag—
Blood-bathed at the battle of old Valley Forge,
Still true when Lincoln made treason disgorge.

Grant me Thy Grace, as Ambrosia fed on—
Direct my path from deceit's Armageddon,
And Thine be the power and glory of men,
This is my prayer, Lord, now say I—

AMEN.

UNION SERVICES FOR THANKSGIVING

(Continued from page 1)

"The old Testament was written from the point of view that Jehovah was fully identified with the land, as well as the people, and it took centuries to understand the mighty sweep of events. But plainly the law of Providence was at work and revealed in two tendencies. First, the destructive that prepares the way for the construction of a higher civilization. And when this constructiveness failed to penetrate, the nation died down to the roots.

"Then came the offer to Europe. Northern Europe accepted the gospel but Southern Europe developed a perverted gospel that has been the curse of Latin nations for centuries, and so through accepting and rejecting the gospel the provinces of God have been working out the plan for ushering in the golden age of the brotherhood of man. The pathway sometimes has been through Gethsemanes and Calvaries, but ever onward toward the higher ideals of life.

"But divine providences have not always been strictly to the proclamation of religious truth. Other forces have been used.

"Eleven years before the Pilgrims left Holland the Dutch entered the highlands of New York and founded a city on Manhattan Island that increased in population until in the year 1664 there were three hundred buildings and fifteen hundred people in the city, but the surrender of the city to the English changed the rule and the Dutch never had a permanent colony after that in America, but the blood of the thrifty and frugal Hollander was mingled with all the nationalities that came to these shores. New England was Puritan, Pennsylvania was Dutch and Quaker, Virginia was settled by the Cavaliers, and Louisiana by the Huguenots, but the people whose lives were so closely related to the early struggles of our country gave up their national characteristics that they might enrich us.

"In the very nature of things, living things demanded separation. The eagle casts her young out of the nest. Animals refuse to mother their young, trees cast their seeds upon streams, so with nations. The selfish desire of George the Third to further enslave a people three thousand miles away, was a blessing in disguise to us today.

But the growth sometimes is beyond all proportion and expectation. To the wisest men the acquiring of territory during the first fifty years of our national life seemed foolish. But we rejoice today in the vicissitudes of Napoleon by which he acquired the territory of Louisiana.

"And we honor the valor and self sacrifice of a Marcus Whitcomb who gave to this nation the great north-west territory with its great wealth, and we enjoy a great continent as the result of the untiring efforts of a humble missionary of the cross.

"And so every follows event, and out of the mystic east, over the mountains of Judea, along Roman highways, from the Black Forests of Germany, and the heather of England, from the dykes of Holland, and the vineyards of France, have come the ideals, each contributing their portion to make of us a great nation, producing a sympathy broad and deep, and working toward all the essentials of that theory which Israel rejected when they demanded a king.

"In the sweep of the centuries what can be said of the present problem? It seems that there are some things that must perish. That militarism that keeps two men working to clothe and feed one in idleness. That system that every fifty years plunges part of the world into a cataclysm of war, that condition of governmental control that seeks to bound the opportunities of men to one side of a river or mountain range. I am not sure but that a few of the German ideals of frugality and thrift and simple life would be better for us all than the profligancy and immorality and extravagance and unnecessary luxury of French and Anglo-Saxon. Possibly after this war, Germany may have something to contribute to the coming kingdom, even if it has to be wrung from her in tears of blood.

"It is related of Columbus that on that historic voyage as they neared the shore he saw the flickering lights and said that it may be that

the faithful wife of some fisherman is waving a torch to light her husband on his way. Centuries have passed and in New York harbor stands the colossal figure of liberty with uplifted torch enlightening the world. Change that word liberty to Christianity, and the torch for the cross, and we have the mission of this great land of ours.

"The world is looking to the west today for help and we believe that under God we will when the time comes, be able to help the suffering nations of the world.

"Prof Ward of the University of Wisconsin has well said in his new anthem of the west:

Men look to the east for the dawning of things,
For the light of the rising sun,
But they look to the west, to the crimson west,
For the things that are done.

The eastward sun is a new made hope

From the dark of a night distilled,
But the westward sun is a sun set sun;

'Tis the sun of a hope fulfilled.
So out of the East they have always come;

The cradle that saw the birth
Of all the heart worn hopes of men
Of all the hopes of earth.

For out of the East the Christ arose,
And out of the East there gleamed
The dearest dream and, the, clear-
est dream,
That ever a prophet dreamed.

And into the waking West they go,
With the dream child of the east,
And the hopes that they hoped
of old,
Are a hundred times increased.

And here in the East we dream our dream,
Of the things we hoped to do.

And here in the West the crimson West,
The dreams of the East come true.

Sheffield Plate

In the Sheffield plate of eighteenth century copper and silver plates were rolled together, by a tedious process which today would make it more costly than silver.

Modern Sheffield plate, has a base of nickel silver, but retains the chief characteristic of the original Sheffield the silver border mountings giving it a wearing quality which places it beyond the question of "How long will it last?" and upon the same plane of service as sterling silver. We have in stock 3 piece tea sets, meat platters double vegetable dishes, gravy boats and trays, sandwich tray's, bon bon dishes and etc.

RUSS PAPER TELLS OF "IMPUDENT MESSAGE"

Retch Explains Mysterious Reference Made by Balfour.

Petrograd, Nov. 27.—(Via Paris).—The newspaper Retch prints an explanation of the mysterious reference by Rt. Hon. A. J. Balfour, ex-premier of England, at the Guild hall banquet in London on Nov. 10, to "one of the most impudent messages ever addressed by one monarch to another." The Retch says that on the eve of the fall of Tsing-Tao the kaiser sent a message to the mikado in which he proposed to conclude peace with Japan by accepting all the conditions which the mikado would be pleased to fix. But the German emperor exacted one condition, namely that Japan should attack Russia. The mikado declined to accept the proposal and added:

"That day when the last foot hold of German culture falls in will be one of the most glorious in Japanese history."

The mikado concluded by telling the kaiser that he had deceived himself enormously by thinking that Japan, like Prussia, was capable of violating treaties.

The mikado handed the kaiser's telegram and a copy of his reply to the British minister.

EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health. When your kidneys feel like lumps of lead, your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders. Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

IN SUCH PAIN WOMAN CRIED

Suffered Everything Until Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Florence, So. Dakota.—"I used to be very sick every month with bearing down pains and backache, and had headache a good deal of the time and very little appetite. The pains were so bad that I used to sit right down on the floor and cry, because it hurt me so and I could not do any work at those times. An old woman advised me to try Lydia E. Pinkham's Vegetable Compound and I got a bottle. I felt better the next month so I took three more bottles of it and got well so I could work all the time. I hope every woman who suffers like I did will try Lydia E. Pinkham's Vegetable Compound."—Mrs. P. W. LANSING, Route No. 1, Florence, South Dakota.

Why will women continue to suffer day in and day out or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

BULGARIA ASSURES ENTENTE

See Will Not Attack Roumania if Latter Enters War.

Sofia, Nov. 27.—After his declaration in the Sobranje, Premier Radoklov received successively the Russian, French and British ministers who expressed satisfaction with the declaration. It is stated also that pourparlers have been initiated with a view to identifying the interests of Bulgaria with those of the entente powers.

The declaration referred to is presumably the Bulgarian premier's assurance that Bulgaria will not attack Roumania in case the latter nation enters the European war.

WAR BECOMES DULL AFFAIR IN BELGIUM

Only One Small Engagement on 350-Mile Line.

Paris, Nov. 27.—There was only one infantry engagement Thanksgiving day along the whole battle line of 350 miles from the North sea to the region of Metz. Small forces of Germans and French were in collision east of Verdun, it is officially announced. The battle which was of no importance as affecting the general campaign at the east of the line was the result probably of a further attempt of the French to advance their lines northward from Pagny toward Arnville and thereby construct the loop around the German position of St. Mihiel on the Meuse.

In Belgium, northern France, and along the old center Germans and allies rested on their arms. The practical suspension of hostilities (there has been no movement of consequence in these regions for a week) is an amazing feature of the official reports, and is to be accounted for only on the theory that both Germans and allies are shifting troops in preparation for attack and defense at new points. Apparently General Joffre and the German general staff are playing a vast game of strategy, each side holding infantry in leash while seeking for a weak place in the line of the adversary.

There was only one sharp engagement by infantry in the fighting of Wednesday. That took place at the village of Missy, which is a little north of east of Soissons, and between Soissons and the village of Vailly, at the hinge of the old battle line. Missy has been held by the French and the Germans attempted to advance and occupy the village. The attack failed completely and the Germans lost heavily.

FOREST FIRES IN ILLINOIS

Valuable Timber and Much Other Property Being Burned.

Marion, Ill., Nov. 27.—Fire has been raging furiously in the cypress forests in the southern district of Illinois. A strip of fine timber, all cypress, containing about 10,000 acres, is now being swept. A bridge on the Big Four railroad has gone out blocking traffic on the Cairo division. Round Lake Reservoir, owned by a club of this city and valued at many thousands of dollars, is in immediate danger. Several saw mill camps are dotted through the section, and thousands of dollars invested in box factories and mills are almost sure to be lost.

Smoke from the forest is now being blown to this city, some sixty miles north, and a heavy fog of smoke has settled down over this entire section.

Backache is a heavy burden; Nervousness, dizziness, headache Rheumatic pain; urinary ills; All wear one out. Often effects of kidney weakness. No use to cure the symptoms. Relief is but temporary if the cause remains.

If it's the kidneys, cure the cause. Doan's Kidney Pills are for kidney ills.

Read about your neighbors case. Here's Dixon testimony.

The kind that can be investigated. J. C. Kirkham, 11- E. Fourth St., Dixon, says: "I had been suffering from pain across my back for a long time, but didn't think it was caused by weak kidneys. Finally, a friend advised me to try Doan's Kidney Pills and I got a box at Leake Bros. drug store. It didn't take them long to remove the trouble. The cure has been permanent. All I said about Doan's Kidney Pills when I endorsed them before, holds good."

GERMANS IN COUNTER CLAIM

Kaiser's Staff in Official Statement Says 40,000 Russians Are Prisoners Austria Also Issues Statement Alleging 29,000 More Are Lost to the Czar.

Petrograd, Nov. 27.—Disaster once more has overtaken the Germans in Poland. Their second army of invasion is smashed. Not only has their flank been cut, but the Russians are well in the rear of the German army.

The battle of Koluszki is the crowning victory of the campaign in Poland. What is left of the German army is still being pursued, surrounded by a wall of Russians and in terror of the steel of the Cossacks. The enemy is fighting with the desperation of despair to regain his own frontier.

When the final cost is counted, Koleski will be found a greater blow to German hopes than either Lemberg or the San.

Claim 40,000 Russ Prisoners.

Berlin, Nov. 27.—(By wireless.)—The following official statement was given out by the German war office:

"Near Lodz, in Russian Poland, we have taken 40,000 unwounded Russian prisoners, 70 guns, 160 ammunition wagons and 156 machine guns, in addition to destroying their cannon. The battle between the Germans and the Russians in that vicinity is in progress and has not yet been decided.

"Our troops have acquitted themselves nobly in the eastern as well as the western theater of war."

Austrians Claim 29,000 More.

Vienna, Nov. 27.—(Via Berlin and Amsterdam.)—Twenty-nine thousand prisoners have been taken by the Austrians in their present operations against the Russians in Galicia and Poland, it was officially announced today by the Austrian war office. The announcement follows:

"The rounding up of the Russians continues. Twenty-nine thousand prisoners have been taken up to date in the present operations, as well as 49 machine guns and large quantities of ammunition and provisions."

BIG WAR ORDERS TO INDIANA

Russia to Make Contract With South Bend Firms for Wagons.

South Bend, Ind., Nov. 27.—Closely following the announcement that the Studebaker corporation of South Bend had contracted to provide Great Britain with automobiles, wagons, sleds and harness at a cost of approximately \$15,000,000 are reports to the effect that Russia is to make a contract not only with the Studebaker corporation, but also with the Birdsall Manufacturing company for wagons which are to be used by the great armies now in the field. Other South Bend firms are in line for big orders, the South Bend Woolen company and the Davies Shirt company having been asked to take such portions of gigantic orders for blankets and shirts as they can fill.

Agents of Great Britain, France and Russia have also been in South Bend during the last few days, endeavoring to place orders for woolen sweaters, hundreds of thousands of which are needed by the troops in the field.

Wisconsin Mills Have Orders for 108,000 Dozen Pairs.

Milwaukee, Wis., Nov. 27.—Reports from the knitting mills of Wisconsin, gathered by a local newspaper, showed that the establishments were working on an order for 108,000 dozen pairs of woolen socks and 400,000 sweaters, given them by representatives of the British and French governments. All the orders were of the "rush" variety and most of the mills are running day and night. Prices averaged about \$3 a dozen for the socks and \$2.50 each for the sweaters.

One Racine factory said it had been forced to refuse contracts for woolen goods for European armies because it was working to capacity on domestic orders.
